BeeGFS Receives Honors in 2022
HPCwire Readers' and Editors' Choice Awards

20th Annual HPCwire Awards Presented to Leaders in the Global HPC Community

Dallas, TX — November 14, 2022 — BeeGFS has been recognized in the annual *HPCwire* Readers' and Editors' Choice Awards, presented at the 2022 International Conference for High Performance Computing, Networking, Storage, and Analysis (SC22), in Dallas, Texas. The list of winners was revealed at the SC22 HPCwire booth, as well as on the HPCwire website: www.hpcwire.com/2022-hpcwire-awards-readers-editors-choice

BeeGFS was recognized with the following honor(s):

- Readers' Choice: Best HPC Storage Product or Technology

The coveted annual *HPCwire* Readers' and Editors' Choice Awards are determined through a nomination and voting process with the global *HPCwire* community, as well as selections from the *HPCwire* editors. The awards are an annual feature of the publication and constitute prestigious recognition from the HPC community. They are revealed each year to kick off the annual supercomputing conference, which showcases high performance computing, networking, storage, and data analysis.

"The 2022 Readers' and Editors' Choice Awards are exceptional, indeed. Solutions developed with HPC led the world out of the Pandemic, and we officially broke the Exascale threshold — HPC has now reached a billion, billion operations per second!" said Tom Tabor, CEO of Tabor Communications, publishers of HPCwire. "Between our worldwide readership of HPC experts and the most renowned panel of editors in the industry, the Readers' and Editors' Choice Awards represent resounding recognition of HPC accomplishments throughout the world. Our sincerest gratitude and hearty congratulations go out to all of the winners."

"We are so honoured to be awarded the 2022 HPCwire Readers' Choice award for Best HPC Storage Product or Technology and would like to thank the BeeGFS and HPC community who voted for us, along with HPCwire for organizing the awards. Our team is ecstatic with the award, especially as we have now been awards winners for 5 consecutive years". Said Frank Heroild, CEO, ThinkParQ

More information on these awards can be found at the *HPCwire* website (www.HPCwire.com) or on Twitter through the following hashtag: #HPCwireAwards.

About ThinkParQ GmbH

ThinkParQ GmbH strives to create and develop the fastest, most flexible, and most stable solutions for every performance-oriented environment. Established in 2014 as a spinoff from the Fraunhofer Center for High-Performance Computing, ThinkParQ drives the research and development of BeeGFS, and works closely with system integrators to create turn-key solutions. Visit http://www.thinkparq.com for further information.

About BeeGFS

BeeGFS is one of the leading parallel cluster file systems, developed with a strong focus on performance and designed for very easy installation and management. If I/O-intensive workloads are your problem, BeeGFS is the solution. For more information, visit www.beegfs.io

About *HPCwire*

HPCwire is the #1 news and information resource covering the fastest computers in the world and the people who run them. With a legacy dating back to 1986, *HPCwire* has enjoyed a legacy of world-class editorial and journalism, making it the news source of choice selected by science, technology, and business professionals interested in high performance and data-intensive computing.
