

**Press Release:** ThinkParQ elevates Versatus HPC to Platinum Partner Level across LATAM.

Kaiserslautern, Germany, August 1<sup>st</sup> 2024, ThinkParQ, the company behind the leading parallel file system BeeGFS, announced today the elevation of their channel partner and reseller, Versatus HPC, to Platinum Partner status, further enhancing innovative and strategic business initiatives across Latin America.

Versatus prides itself on providing innovative solutions to their customers across Latin America. Since 2020 Versatus has been an official certified partner and reseller of BeeGFS in Brazil and across LATAM and have many BeeGFS installations in HPC, Oil, and Research and Education.

"I am thrilled to witness Versatus HPC advance to Platinum Partner status within our network," said Frank Herold, CEO of ThinkParQ. "Our collaboration with the Versatus HPC team has been remarkable, and their successful BeeGFS deployments for numerous customers, along with the expansion of BeeGFS across Latin America, have earned them this prestigious recognition as Platinum Partners."

As certified and fully trained Platinum Partners, Versatus HPC is now poised to further expand, install, and support BeeGFS for organizations across Latin America.

"Since joining ThinkParQ's partner program, we've closely collaborated with numerous clients, both longstanding and new, enabling them to scale their storage volumes and significantly enhance their throughput. BeeGFS has consistently delivered substantial value and productivity to our clients," commented Denis dos Anjos, General Director of Versatus HPC. "As one of the key providers of Official BeeGFS support in English, Spanish, and Portuguese, our Platinum Partner status further enhances our ability to deliver superior support and services across LATAM."

Versatus HPC and BeeGFS are co-platinum sponsors of the LATAM HPC event of the year, CARLA, happening in Chile at the end of September.

#### **About Versatus HPC**

Versatus HPC is a Brazilian company, 100% focused on providing the best High-Performance Computing solutions for academic and corporate clients. For over 10 years, they have enabled researchers and institutions to dedicate themselves exclusively to their scientific and R&D goals, by offering comprehensive, easy-to-use, and customized solutions tailored to their needs.
