

Press Release: ThinkParQ GmbH and System Fabric Works announces new joint venture company, ThinkinQ, and appoints Kevin Moran as CEO.

Kaiserslautern, Germany, November 7th 2023, ThinkParQ the company behind the leading parallel file system BeeGFS, announces today the launch ThinkinQ a new joint venture company between ThinkParQ and System Fabric Works.

ThinkinQ's primary objective to increase the presence of BeeGFS across North America through offering localized USA based sales and technical support services directly to their network of partners and end users.

The company will be led by CEO Kevin Moran, who has many years of experience with delivering high performance solutions in HPC, AI, Federal Government and Oil and Gas throughout the USA.

"I am thrilled to be driving ThinkinQ in the USA and working even more closely with the community through North America" said Kevin Moran, CEO, ThinkinQ. "ThinkinQ will be in a position to further enable more success with our partner network and offer even more localized consulting and support services around BeeGFS to our customers and partners".

As one of the leading parallel files systems on the market, ThinkParQ has experienced a tremendous uptake of BeeGFS around the globe especially in the USA. With ThinkinQ, both customers and partners will further benefit from more localized support, consulting, and installation services along with a targeted go to market plan.

"System Fabric Works is no stranger to the ThinkParQ team, having been a platinum partner for the past 5 years", said Frank Herold, CEO ThinkParQ. "The USA market has been one of our fastest growing markets, and now having a localized based setup led by Kevin, will enable us to better respond to customer demands in the USA for supporting and delivering BeeGFS".

About ThinkinQ

ThinkinQ is a joint venture between ThinkParQ GmbH and System Fabric Works, Inc. with the primary objective to increase the presence of BeeGFS across North America through offering localized USA based sales and support services directly to our network of partners.
